Artimex 90"/96"/98" Wall Bars

[Click Here | Direct From Artimex](#)

*Browse the Artimex site for your preferred style. Individuals $\leq 5'6"$ tall are good with a 90" tall (230 cm) ladder. Individuals $\geq 5'7"$ need a 240-250 cm tall ladder. Black or white metal side "stringers" are standard if choosing a metal & wood model, but colors can be customized ([color chart](#)). I recommend oval rungs, but round are fine!
